PURPOSE:
Getting interesting work in the field of programming.

EDUCATION:
Sept 2010 – June 2015: *National Aerospace University "Kharkov Aviation Institute", faculty of Computer Systems and Networks, specialty of Computer Engineering.*

PROFESSIONAL EXPERIENCE:

August 2014 – August 2015	***Software developer in Smart Triolan department*** • Development of innovation solutions in monitoring. 1) Project**: System to monitoring and video surveillance** Description: System for view cameras. Cameras broadcasted by http protocol in MJPEG format. Streams processing (light detection, motion detection and face detection) are executed on server and result sent to client. Technologies: C#, .Net Framework 4.5, WPF, Multithreading, EmguCV (OpenCV), AForge, HTTP protocol, MJPEG format of video, ADO.NET, SQL, MS Visual Studio. 2) Project**: Improvements site service.triolan.com** Description: Added page on ASP.NET Web Forms for internal needs. Access to it is only possible for domain authentication. Page provides technical information on statistics employees. Technologies: C#, ASP.NET Web Forms, ADO.NET, SQL, HTML, CSS, MS Visual Studio**.**
January 2014 – August 2014	***Junior .NET developer in Ektos-Ukraine LLC*** • Support and develop desktop applications. 1) Project**: Universal Communication Simulator** Description: Application allows you to create and send by protocols of Modbus or PowerNet to the board and get answers. Technologies: C#, .Net Framework 4.5, WPF, MVVM, protocols of Modbus and PowerNet, MS Visual Studio. 2) Project**: ARM Tool's Installer** Description: Installer allows deploying a set of applications and drivers on the PC, the user can only select the installation path only. Technologies: C#, .Net Framework 3.5, WPF, MVVM, MS Visual Studio

QUALIFICATION:

Languages programming:	C#, SQL, HTML + CSS, JavaScript, JQuery, Java, C/C++.
Platforms and Frameworks:	.NET, ASP.NET WebForms, WPF, WinForms, ADO.NET, LINQ, EmguCV (OpenCV)
Data Exchange:	JSON, XML
*OS***:**	Windows, Linux
Database:	Microsoft SQL Server, MySQL
Development tools:	Microsoft Visual Studio, SQL Server Management Studio, Eclipse
Additionally:	Git, SVN, Redmine
*Language***:**	Ukrainian, Russian, English

ADDITIONAL INFO:

Openness to new ideas and concepts, positive attitude, possibility to work independently or as a part of team, honesty, responsibility, diligence, commitment, high self-organization, quickly analyze and systematize the new information, hard worker, results-driven, strategic thinker, self-motivate and bottom-line. Ability quickly learn new technology. The presence of the desire to work and perfected.
